CERTIFICATION

TRANSTRONIC I KÖPING AB

Thank you for choosing Skicka Grönt for **56,4%** of your shipments.

Through your commitment, you have reduced fossil greenhouse gas emissions from these transports. These reductions were achieved through the use of 100% renewable fuels and modern technologies.

In this way, your responsibility has created real impact, enabling more carriers to adopt advanced – and more costly – technologies to reduce climate impact and accelerate the transition toward a sustainable transport sector.

Thank you for making a difference.

A blue ink handwritten signature, appearing to read "Robert Zander", is written in a cursive style.

Robert Zander
VD DHL Freight Sweden

SKICKA GRÖNT is verified by independent auditors. Each customer selection is carefully recorded to ensure that emission reductions are not double-counted. Our follow-up processes ensure that only the actual transports performed by Skicka Grönt-trucks are included, and that renewable fuel volumes are transparently reported. The solution is cost-efficient and does not affect delivery terms or the efficiency of our network – while directly reducing the climate impact of the transports chosen by participating customers. The climate benefits are allocated to customers who actively choose to opt out of fossil diesel by selecting Send Green.

The fuels used for Skicka Grönt transports are 100% renewable, consisting of a mix of electricity, biogas, HVO100, FAME, ED95 and RME
